PRO MAX REELS

Maximum Performance, Professional Results

Abu Garcia enhances popular line of reels

The Abu Garcia® Max™ reels are dedicated to giving everyday anglers professional results. It doesn't matter if they head to the local river or to their favorite impoundment, the Max family of reels can handle the stress of everyday use.

Abu Garcia has made many enhancements to the popular line, giving them even more attributes that make them a workhorse. Each feature a machined-aluminum ported spool that greatly reduces overall weight. The line of Abu Garcia Max reels have a one-piece graphite frame and graphite sideplates.

Taking design cues from the Orra® and Revo® lineups, the new Pro Max combo delivers top-notch performance in an exceptionally smooth package. The externally adjustable MagTrax™ casting brake ensures efficient casting control while the seven-plus-one stainless steel bearing system delivers a remarkably smooth retrieve. The high-speed Pro Max reels have a 7.1:1 gear ratio and feature an ergonomically engineered handle and star drag for greater comfort and feel. The result is a lightweight, compact combo that is engineered to take the abuse.

RRP for the Pro Max is \$139.95 and \$179.95 for the Pro Max combo.
