ABU GARCIA SALTY FIGHTER

REFINED STYLE WITH OPTIMUM PERFORMANCE & GREAT VALUE

The range combines affordability with a modern, appealing look and action. Abu Garcia Salty Fighter Origin rods are designed in Australia for the ultimate casting performance. Featuring the latest in Japanese rod design, quality components and striking cosmetics.

30 ton graphite delivers a lightweight, sensitive and powerful blank. The lightweight properties of the SiC guide system retains blank action while tight line control is achieved with reduced diameter SiC ring sizes. The increase in line control improves sensitivity and reduces windknots. Salty Fighter Origin rods feature a sophisticated EVA grip design with Cork inserts that delivers an ergonomic grip system that not only feels great in the hand but also looks sensational to the eye.

The 16 model line up consists of 13 spin models and 3 baitcast models. Actions range from ultra light 1-3kg through to ballsy 6-10kg spin models in 6'6" and 7'. Baitcast models are all 5'6" from a lightweight 2-4kg through to a barra bashing 6-8kg.
