2	Record 2000 There was about 950 engraved Record 2000 manufactured with yellow and white side plates at the same time (same as for 1900) approximately until serial number 800. This means that less then 200 engraved with black side plates was produced, After that the engraving is gone.	<image/>

3	Record 1900 1st series white side	
	plates, engraved	
	The first model of 1900 has only	
	white side plates and the frame is	
	made of aluminum. It took ABU 1	
	month to realize that they need to	
	change the material.	
	A while later they wanted to	
	increase the "customer value" of	
	1900 & 2000 and added yellow side	
	plates and those reels was sold	
	parallel with the white (about 500	
	reels totally) during 2-3 year. This	
	means that about	
	250 white was produced and 3-4 of	
	them are known today	
4	RECORD 2100 First series in	
	wooden box	
	Everything is included, spare parts,	
	toll, manual, grease, leather bag and
